

THE ILLUSION COLLAR™ & LEASH SET

This product was developed and made in the USA.

The Illusion Collar™ is designed to function best when used while walking with your dog on your left, holding the leash in your left hand, as taught in dog training classes. A short leash is included with The Illusion Collar™ to keep the dog close to you during the walk.

If you need to make a correction during the walk, simply give a firm and quick pull on the leash to correct. Only use this collar while training or walking your dog. For safety purposes, your dog should not be left unsupervised while wearing The Illusion Collar™ or any other slip collar.

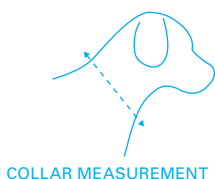

THE ILLUSION COLLAR™

MATERIALS

- 100% nylon webbing and core-wound cord
- Case-hardened metal O-rings
- Durable plastic high impact buckles
- Nylon thread

- 4** COLLAR IS PROPERLY FITTED WHEN C STRAP LIES ON DOG'S TRACHEA

- 5** ATTACH LEASH TO THE LARGER O-RING AT THE END OF SLIP COLLAR

DISCLAIMER

Use The Illusion Collar™ only as described in this instruction sheet for training and correctional control. Misuse or improper use may result in injury. Cesar Millan, Inc. is not liable for any modifications made to the collar. The Illusion Collar™ should not be used on dogs with any problems related to the trachea or swallowing. If your dog has these conditions, consult your veterinarian for the best type of harness device to train and control your dog. It is not recommended for dogs with extremely short necks, such as English Bulldogs, nor is it appropriate for dogs that have very long, slender necks and typically use a martingale type of collar, such as Greyhounds, Whippets, and Italian Greyhounds.

WARRANTY

The Illusion Collar™ is warranted against defects in manufacture and workmanship for 90 days. Undamaged collars may be returned or exchanged within 30 days of delivery. Cesar Millan, Inc. is not responsible for normal wear and tear, chewing, or other damage done to the collar or leash by your dog.
